## ***Are you compliant with the latest EASA regulations?***

### ***New monthly Service available: InSight Aviation Safety Regulations Report***

EASA regulations have huge impact on all those working in the aviation sector. Updates have to be monitored and essential requirements need to be implemented in daily business of operators of aircraft, aerodromes, maintenance organisations and training organisations.

In order to save time and resources, AeroEx can help organisations by monitoring EASA Regulation updates and provide on a monthly consolidated basis an **InSight Aviation Safety Regulation Report**. There are 2 subscriptions available: "**Basic**" which reports all changes handy and consolidated as list tailored to applicable Parts or "**Premium**" where you will get additional recommended actions customized to your specific operation. Both compact reports are designed to be aware and stay compliant for relevant subjects concerning your operation as an obligation.

InSight Aviation Safety Regulation Report "Basic" can be subscribed per Part or as bundle (e.g. AOC Bundle including following Parts: DEF Air Ops, ARO, ORO, CAT, SPA, CC, M and SERA for an annual introductory subscription fee of CHF 300.-) on <http://www.aeroex.eu/#subscriptions-insight> and "Premium" is available on request.

These convenient reports support aviation organisations implementing the EASA requirements including the preparation and continuous updating of manuals and documents. AeroEx can assist operators beginning from a Compliance Check, manual writing to establishing safety management systems (SMS), organizational structures as well as obtaining specific operational approvals etc..

**Joel Hencks**, Managing Director of AeroEx GmbH explains: "This unique offer allows organisations to receive monthly Aviation Safety Regulations Insights customized services. We are the first contact for our customers when it comes to implementing new European regulations and industry standards."

## ***Are you compliant with the EASA regulations?***
